DWA_04.3 Knowledge Check_DWA4

_____

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

Use descriptive function names: This rule helps you to understand what a function does at a glance, without having to read through the function body.

 Keep lines of code short: This rule helps to avoid long, unreadable lines of code.
I find these rules useful because they help to keep my code clean and easy to understand. This makes it easier to maintain and modify the code in the future.

Use single-quotes for strings: This rule helps to make your code more readable, since single-quotes are easier to distinguish from other characters.

_____

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

Use 2 space indentation- it takes some time to get used to the smaller indentation size so I have to change some of my existing habits.

Quotes- It can be confusing to remember which quote type to use in a particular language.

Using lowercase letters- it takes some time to get used to using lowercase letters throughout my code.
